## CONTACT US

# WE BRING THE FIGHT!

Are you ready for some football?!? We are! The Office of Emergency Management, along with our campus partners in Athletics, Parking/Transportation, University Police, and Fifth-Third Bank Stadium are gearing up for football game day operations. We will be operating command and operation centers inside and outside the stadium. Our main responsibilities include keeping an eye on weather conditions, preparing for any evacuation needs, and helping protect the participants, patrons, and workers during games. A few weeks ago, we even held a table top exercise to discuss all of the possibilities and how we would respond to many types of incidents. We hope you come out and enjoy KSU's inaugural season with us!

## IT IS NATIONAL PREPAREDNESS MONTH!

September is National Preparedness Month! This year's theme is "Don't Wait. Communicate. Make Your Emergency Plan Today." We encourage everyone to have a plan and talk to family and friends about what you will do in an emergency or disaster. During an event, how will you contact your family if cell communications fail? Do you have a designated meeting place? These are just a few things to put in your communication plan. Do you have children? How will they know what to do? Don't forget Fido or Fluffy! They need help too! There are many resources to help you get started by visiting [www.ready.gov/prepare](http://www.ready.gov/prepare). Kennesaw State University has a plan, and we try to help faculty, staff and students understand the importance of not only workplace/school preparedness but personal preparedness as well. You never know where you will be when severe weather strikes or some other tragedy. Join us in participating in this nationally recognized campaign. Follow us on social media for facts, contests and tips. #NATLPREP

#PREPAREDNESSPUPPY

### COMING SOON TO KSU!

The **Crisis Coordinator Communique** is here to provide monthly communication concerning KSU Crisis Coordination, upcoming training, and emergency and safety tips.

### EMERGENCY PREPAREDNESS TIP OF THE MONTH

Lights Out!: Make it a practice to carry a small flashlight with you wherever you go. Evacuating when it's dark is a whole lot more difficult than when you have some light!
